

The World's Most Beautiful Ribbons™

# How to Make a Car in a Jar Snow Globe

Make this cute snow globe to add to your Christmas decorations or give it as a gift!

## Step-by-Step Instructions

**STEP 1** To begin, cut a 24 inch piece of twine. Cut the bottom plastic piece off the bottle brush tree. Place the tree on top of the car. Wrap the twine twice around the tree and the car and tie a knot to secure the tree on the car.

**STEP 2** Add a small amount of faux snow to the jar. Squeeze a mound of hot glue inside the jar at the center of the bottom. Place the car on top of the glue and allow the glue to dry. Add a bit more snow and screw on the top.

**STEP 3** Cut a 30 inch piece of red ribbon. Tie the ribbon around the top of the jar lid and tie into a bow.

**STEP 4** Use a piece of twine to add bells to the center of the bow.

### YOU WILL NEED

- Offray Double Face Satin Ribbon, 5/8 Inch Wide, Red
- Offray Bakers Twine, Red
- Glass Jar
- Small Toy Car
- Bottle Brush Tree
- Small Bells
- Faux Snow
