The World's Most Beautiful Ribbons™

How to Make a Vampire Bite Choker

YOU WILL NEED

- Offray Double Face Satin Ribbon, 5/8 Inch Wide, Black
- 2 Teardrop Beads, Red
- 15 Seed Beads, Red
- 2 Ribbon Clasps, 3/4 Inch
- Lobster Claw Closure
- Jump Rings, 6mm
- Flat Nose Pliers
- Measuring Tape
- Scissors
- Hot Glue Gun and Glue

Fool your friends with the illusion of a vampire bite! This choker is a simple way to show your Halloween spirit without a full costume.

Step-by-Step Instructions

- STEP 1** To begin, measure your neck and subtract 1 inch. Cut the ribbon to this length.
- STEP 2** Add the clasps to the ribbon ends and squeeze tightly with pliers.
- STEP 3** On one end, add a lobster claw and one jump ring.
- STEP 4** On the other end, add several jump rings for sizing adjustments.
- STEP 5** String a teardrop bead onto a 10 inch piece of string and bring it to the center. With both ends together, add on eight or so seed beads. Bring one end back through the last bead and pull. Tie to secure.
- STEP 6** Repeat Step 5 but only add 5 or so seed beads.
- STEP 7** Cut a 1 inch piece of ribbon and glue on the beaded strings, spacing a 1/2 inch apart.
- STEP 8** Glue this piece to the back of the choker about 5 inches from the closure so the beads hang on the side of the neck.
