

The World's Most Beautiful Ribbons™

How to Make Halloween Ribbon Bats

Create this fun and easy Halloween decoration with just a few supplies. Dress up your entry way or party table with these spooky little bats made from satin ribbon.

Step-by-Step Instructions

YOU WILL NEED

- Offray Single Face Satin Ribbon, Black in 3/8, 7/8, and 1.5 Inches Wide
- Offray Single Face Satin Ribbon, Torrid Orange, 7/8 Inch Wide
- Offray Wired Edge Jive Ribbon, White, 1.5 Inch Wide
- Vase
- Branches
- Tape
- Scissors

- STEP 1** Wrap a few branches with orange ribbon. Start at the top or middle of the branch and tape ribbon to the branch. Wrap the ribbon around a few times to hide the tape. Pulling the ribbon tightly, begin wrapping the ribbon in a downwards motion. Once you reach the bottom of the branch, wrap a few more times and cut and tape the end.
- STEP 2** Repeat Step 1 using the baker's twine on a few branches. Instead of using tape, tie a small knot and wrap the twine to hide the end. Continue to wrap tightly around the length of the branch. Once you reach the bottom of the branch, tie-off and trim the end.
- STEP 3** To create the bats, cut pieces of black satin ribbon 6 to 8 inches long. Tie a piece of ribbon in a double knot around a branch. Trim the bat wings at an angle with the longer tip on top.
- STEP 4** Add bats to the branches using the different widths of ribbon.
- STEP 5** Use the striped Jive ribbon to wrap around the vase. This will hide the ends of the branches.
