

Offray®

The World's Most Beautiful Ribbons™

DIY Tea Lights

Make these festive DIY Tea Lights to include on your Thanksgiving table this fall.

Step-by-Step Instructions

YOU WILL NEED

- 1-1/2" Offray Wired Burlap Ribbon, Natural
- 5/8" Grosgrain Ribbon, Torrid Orange
- 1/4" Offray Simply Sheer Asiana Ribbon, Champagne
- Tea light holders
- Glue appropriate for ribbon
- Glue Gun and Glue

- STEP 1** To make the small flower, cut 3 lengths of ribbon 3.75" long* for each tea light holder you will make.
- STEP 2** Place a dab of white glue in the center of your ribbon. Make a figure eight with your ribbon by folding the edge to the middle placing the edge at an angle in the center.
- STEP 3** Fold the other edge of the ribbon to the center at an angle to complete your figure 8 with the ribbon.
- STEP 4** Make 3 for each tea light holder. Allow the glue to set but not dry completely. When the glue is set, stack these figure eight ribbons on top of each other staggered to create the flower. If the glue is still somewhat wet, you will be able to press the ribbon together and it will hold. If not, add a small dab of glue between each layer to hold the flower together.
- STEP 5** Cut a length of burlap ribbon 7.75" long*. Arrange your burlap ribbon around the tea light holder. Hot glue in place. Use small amounts of hot glue so that the glue does not seep through the ribbon.
- STEP 6** Cut a length of grosgrain ribbon 7.75" long*. Place the Torrid Orange grosgrain ribbon in the middle of the burlap ribbon and secure in the back of the tea light holder with hot glue.
- STEP 7** Use hot glue to secure the flower you made in the first 4 steps to the front of the tea light holder.

*Please note, you may have to adjust the length of your ribbon cuts to your tea light holder.
