

Offray®

The World's Most Beautiful Ribbons™

Ribbon Trim Table Runner

This simple runner design will help brighten and kitchen or dining room table! It would also look great on a buffet.

Step-by-Step Instructions

YOU WILL NEED

- Offray Monstera, Wired Edge Ribbon
- Cotton Twill, Cotton Duck, Linen, or Linen-look Fabric
- Standard Sewing Supplies
- Iron

- STEP 1** Cut or tear two pieces of fabric of even size
Suggested width: 14" wide.
- STEP 2** Sew the long seams right sides together.
- STEP 3** Press the seams to one side, from the inside and outside.
- STEP 4** Press flat. Fold the tube you've created so the seams are centered on the side edges, and press and pin flat.
- STEP 5** Topstitch about 1/4" (presser foot width) from the edge on both edges.
- STEP 6** Cut two pieces of Offray ribbon 2-3" longer than the unhemmed runner and remove the wires. I found it helps to stand on the bottom of the ribbon as you scrunch and pull!
- STEP 7** Position the Offray ribbon the desired distance from the edge and pin. Pin on the outer edge, with a few stabilizing pins on the inner edge to keep it on grain.
- STEP 8** Topstitch the outer edge, using your hand and the stabilizing pins to keep it flat.
- STEP 9** Turn ends under and press. Treat them as one piece and turn under 1/4" or so, then 3/4" or so and press and pin.
- STEP 10** Hem by machine or by hand.
