Planning a beach themed wedding? Create this DIY ribbon chair décor featuring a starfish center. Or, modify the design to match your own wedding theme with different colors and a different center embellishment, such as a monogram letter.

Step-by-Step Instructions

- STEP 1** Making sure you have enough length to fold over your chair and reach the desired length on each side, cut your ribbons and set aside.
- STEP 2** Using the Burlap, Wired Edge ribbon, create a ribbon rosette.
- STEP 3** Adhere a starfish embellishment to the center of the rosette using a hot glue gun and glue.
- STEP 4** Using an additional piece of cut ribbon, shorter in length, add it to the center of your burlap ribbon rosette, tucked slightly under the starfish embellishment.
- STEP 5** Hang your ribbons over the chair and secure them in the center.
- STEP 6** Last, adhere your burlap rosette with starfish embellishment to the center of the ribbons pulled together.
